Meeting Sponsors

The mission of the U.S. Fish and Wildlife Service is to conserve, protect, and enhance fish, wildlife, and plants and their habitats for the continuing benefit of the American people.

The U.S. Forest Service International Programs promotes sustainable forest management and biodiversity conservation internationally.

The Mission of the Nature Conservancy is to conserve lands and waters on which all life depends.

The mission of the National Audubon Society is to conserve and restore natural ecosystems, focusing on birds, other wildlife, and their habitats for the benefit of humanity and earth's biological diversity.

Virginia Tech's College of Natural Resources and the Environment specializes in natural resources education, research, and outreach.

The Virginia Department of Game and Inland Fisheries' manages Virginia's Wildlife and inland fish to maintain optimum populations of all species to serve the needs of the Commonwealth.

The Virginia Tech Shorebird Program aims to aid the conservation of coastal wildlife and habitats through research, education, and outreach.

Plenary Speaker Dr. Ted Simons

Ecology of the American Oystercatcher

Ted Simons is a Professor and Assistant Unit Leader in the USGS Cooperative Fish and Wildlife Research Unit, Department of Applied Ecology, NC State University. He earned his B.S. at the University of Wisconsin, Madison, and his M.S. and Ph.D. at the University of Washington, Seattle. He served as a research biologist with the National Park Service and the Director of the NPS Cooperative Park Studies at the University of Virginia for ten years before coming to NCSU in 1993. His research strives to improve species conservation and monitoring programs, and the management of protected areas, through a better understanding of wildlife habitat relationships and sampling methods. Central to that research has been the application of ecological principles to the conservation of rare, endangered, or declining species and their habitats. Recent research has been directed toward the conservation of Neotropical migratory landbirds, including studies of the stopover ecology of birds during migration and breeding birds in southern Appalachian forests, and the conservation of marine birds, including the endangered Hawaiian Petrel, Black-capped Petrels in the Dominican Republic, and American Oystercatchers on the Outer Banks of North Carolina. Research is focused in three broad areas: (1) understanding the ecological factors that constrain species diversity and abundance, (2) modeling wildlife habitat relationships at the population and landscape level, and (3) improving wildlife population sampling methods.

Orador Plenario Dr. Ted Simons

Ecología del Ostrero Americano

Ted Simons es un profesor y subgerente en la Unidad de Investigación Cooperativa de Vida Silvestre del USGS, Departamento de Ecología Aplicada, Universidad Estatal de North Carolina (NCSU). Obtuvo su licenciatura en Ciencias en la Universidad de Wisconsin, Madison, y obtuvo su máster y doctorado en la Universidad de Washington, Seattle. Trabajaba como biólogo investigador en el Servicio de Parques Nacionales (NPS) y como Director de Estudios Cooperativos de Parques en la Universidad de Virginia para diez años antes de venir a NCSU en 1993. Sus investigaciones intentan mejorar programas de monitorización y conservación de especies, además de la gestión de áreas protegidas, por entendimiento mejorado de relaciones entre vida silvestre y hábitat y métodos de muestreo. La aplicación de principios ecológicos a la conservación de especies raras, en peligro de extinción, o disminuyentes y sus hábitats ha sido un tema clave de sus investigaciones. Su investigación reciente ha enfocado en la conservación de aves neotropicales migratorias, incluso estudios de la ecología de escala de aves migrantes y aves reproductivas en las selvas sureñas de Appalachia, y la conservación de aves marinas, incluso el petrel hawaiano en peligro de extinción, diablotines en la República Dominicana, y Ostreros Americanos en los Outer Banks de North Carolina. Sus investigaciones están enfocados en tres temas amplios: (1) entender los factores ecológicos que constriñen la diversidad y abundancia de especies, (2) modelar las relaciones entre vida silvestre y hábitat al nivel poblacional y al nivel de paisajes, y (3) mejorar métodos de muestreo de poblaciones de vida silvestre.

Meeting Information

Venue

All meeting sessions except the plenary on Monday morning will take place in the Education Center of the Chincoteague Bay Field Station (CBFS). The Plenary session will take place in the Chincoteague National Wildlife Refuge Visitor Center. Buses will leave the Education Center at 08:15 on Monday morning for the refuge, and will leave the Refuge Visitor Center at 11:30 to return to the Education Center.

Internet

Wireless is available in the Education Center. Several computers on the second floor of the Education Center are available to access the internet.

ATM

There is an ATM at the Royal Farms convenience store about $\frac{1}{2}$ mile from the Field Station.

Name Tags

Your name tag is your admission to meeting sessions and the cafeteria. Please wear it during the meeting. The name tag also will allow free admission to the Chincoteague National Wildlife Refuge throughout the meeting period (not needed during early morning bird walks/runs, or during WHSG field trips to the refuge).

Early morning bird/jogging trips

A van will leave the CBFS Education Center on Sunday, Monday, and Tuesday mornings at 06:20 for the 20 minute ride to the refuge. Stops will be the Wildlife Loop, Woodland Trail, and the beach. Vans will leave the beach at 07:30, (and at 08:30 if needed), stopping at the same places to return to the CBFS. A light breakfast snack will be available in the cafeteria for self-packing at 06:00 for those birding instead of breakfasting.

Meals

Meals will be at the CBFS cafeteria, across Enterprise Street from the Education Center, or in the tent adjacent at 07:30–08:30, 12:00–12:45, and 18:00–19:00, except Tuesday, 18:00–22:00.

Registration

Registration packets and room assignments will be handed out in the Education Center.
Saturday, Sept. 12th - 08:00–11:00 and 15:00–20:00, and
Sunday, Sept. 13th - 08:00–12:00.

Messages

There will be a message board in the Education Center.

Emergency and other contact information

- Emergency dial 911.
- The main number for the field station is (757) 824-5636
- Local committee (Shannon) after Sept. 9th (540) 818-0560
- Rides back to the airport: sign up at WHSG table, computer room, Education Center

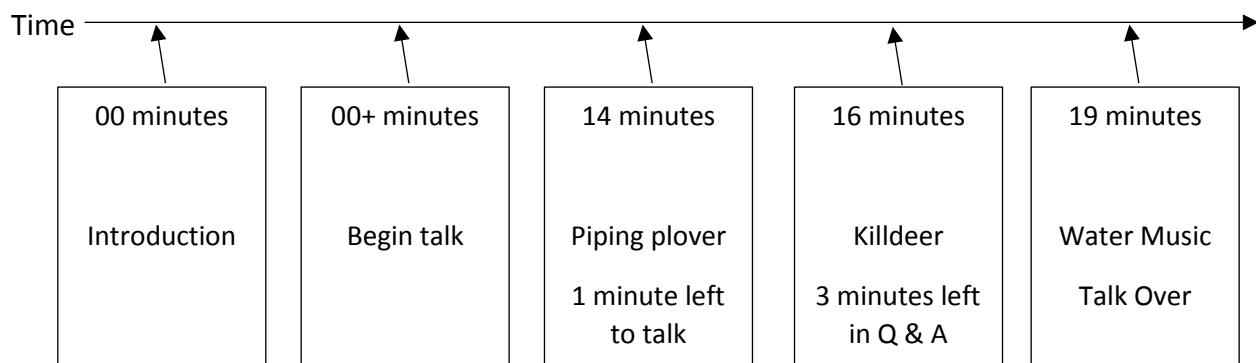

Translation Services

English-Spanish and Spanish-English translations will be available in most sessions. Check out an earpiece at the back of the room, leaving your driver's license with the translator.

Information for Presenters

Oral presentations

Talks may be in English or Spanish. Plan your talk for 15 minutes. There will be four minutes for questions and answers, and 1 minute for an introduction. If technology works, we will have shorebird call warnings as illustrated below:

Computers are available in the computer room on the second floor of the Education Center for you to review your presentation.

Load your talk into the computer in your room well before your session. There will be folders for each session. There will be someone to help you load your file onto the computer. Label the file as "last name. Start time (no colon)", for example "lanctot.1420".

Please seek out the moderator of your session and introduce yourself well before the session so you won't be strangers during your talk.

Session Moderators

Please keep the introductions very short to maximize the speakers' time. We recommend you say only "the next talk will be presented by John James Audubon." We plan to have an automated sound system to keep the sessions synchronized (see above). Please stand up at the 16 minute mark, the beginning of the question and answers, and help the speaker see the people with hands raised. (If the sound system fails, please keep the session on time the old fashioned way. We will provide signs to use in this case.)

Posters

The poster session will be in rooms 201 and 202. You may put your posters up any time talks are not in session using the painters tape provided. Please have them in place no later than 18:00 on Sunday 9/12. Please stand by your posters from 19:00 to 19:30. Then return periodically in case other poster presenters are seeking you. Please remove your posters by 9/15.

Información sobre la Reunión

Lugar

Todas las sesiones de la reunion, excepto el plenario el lunes por la mañana, tendrán lugar en el Centro de Educación del Chincoteague Bay Field Station (CBFS). La sesión plenaria tendrá lugar en el Chincoteague National Wildlife Refuge Visitor Center. Autobuses partirán del Centro de Educación a las 8:15 A.M. el lunes por la mañana hacia el Refuge, y partirán del Refuge Visitor Center a las 11:30 A.M. para regresar al CBFS.

Internet

Wifi es disponible en el Centro de Educación. Algunas computadoras en el segundo piso del Centro de Educación son disponibles para accesar al internet.

Cajero Automatico

Hay un cajero automático en la tienda Royal Farms mas o menos 0.8 kilometros del CBFS.

Chapas Identificatorias

Su chapa identificatoria es su entrada a sesiones de la reunion y a la cafeteria. Por favor llévela durante la reunión. La chapa identificatoria también le garantizará admisión gratis al Chincoteague National Wildlife Refuge durante todo el periodo de la reunion (no es necesario llevarla durante paseos/jogging/vueltas en bici por la mañana temprano, o durante excursiones del WHSG al Refuge).

Excusiones de observación de aves/jogging por la mañana temprano

Una camioneta partirá del Centro de Educación del CBFS el domingo, el lunes, y el martes por la mañana a las 6:10 hacia el Refuge (un viaje de 20 minutos). Parará al Sendero de Vida Silvestre, al Sendero del Bosque, y a la playa. Las camionetas partirán de la playa a las 7:30, parando en los mismos lugares antes de regresar al CBFS.

Comidas

Comidas tendrán lugar en la cafetería del CBFS, cruzando la Calle Enterprise desde el Centro de Educación, o en la carpa adyacente a las 7:30-8:30, 12:00-12:45, y 18:00-19:00, excepto el martes, cuando estará a las 18:00-22:00.

Registro

El sitio de inscripción y de la asignación de habitaciones estará ubicado en el Education Center.

El sábado, 12 septiembre a las 8:00-11:00 y 15:30-20:00

El domingo, 13 septiembre a las 8:00-12:00

Mensajes

Habrá un tablero de mensajes en el Centro de Educación.

Emergencias y más datos

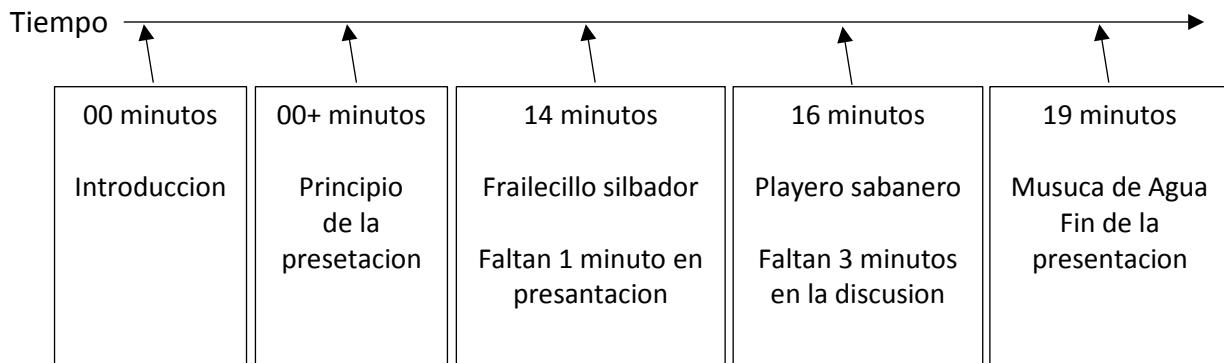

- En caso de emergencia marque 911
- El número principal del CBFS es 757-824-5636
- Reunión femenino (Shannon) preposición después de 9 septiembre (540) 818-0560
- Aventones al aeropuerto - registre en la mesa del WHSG en la sala de computadoras en el Centro de Educación
- Comité local - pare a alguien con el senyal del “comité planificador” en su chapa identificatoria en la mesa del WHSG en la sala de computadoras, segundo piso del Centro de Educación

Servicios de traducción

Traducciones de Ingles-Español y Espanol-Ingles serán disponibles para la mayoría de sesiones. Saque un auricular en préstamo en la parte de atrás de la sala, dejando su permiso de manejar con el traductor.

Información para oradores

Presentaciones pueden ser dadas en inglés o español. Su presentación debería tomar 15 minutos. Habrán 4 minutos para preguntas y respuestas, y un minuto para una introducción. Si la tecnología funciona, usaremos llamadas de aves playeras como alarmas según la ilustración siguiente:

Computadoras son disponibles en la sala de computadoras en el segundo piso del Centro de Educación si quiere revisar su presentación.

Descargue su presentación en la compu bien antes de su sesión. Habrán folders para cada sesión. Habrá alguien para ayudarle a descargar su presentación en la compu. Guarde el archivo con su apellido y la hora de su presentación, por ejemplo Fraser.220.

Por favor busque el moderador de su sesión y se introduzca bien antes de la sesión para que no sean desconocidos durante la presentación.

Moderadores de Sesiones

Por favor mantenga las introducciones cortas para maximizar el tiempo disponible al orador. Recomendamos que solo diga, "La proxima presentacion sera dada por John James Audubon." Planeamos tener un equipo de sonido automático para sincronizar las sesiones (ver arriba). Por favor póngase de pie a los 16 minutos para señalar el comienzo de las preguntas y respuestas, y ayude al orador a ver la gente con la mano levantada. (Si el equipo de sonido fracase por favor mantenga la sesión a horario por la manera antiguada - proveeremos señales para usar en este caso).

Posters

La sesión de posters tendrá lugar en las salas 201 y 202. Ud puede poner su poster en cualquier momento en que no haya charlas usando la cinta que se le proporcionará. Por favor montelos antes de las 18:00 el domingo 9/12. Por favor quédese al lado de su póster desde las 19:00 hasta las 19:30. Despues regrese regularmente en caso de que los otros presentadores le busquen. Por favor saque su póster antes de 9/15.
